SUMMARY

Backend-leaning Fullstack Developer with experience in end-to-end web application development, focusing on backend development, REST API, database management, system stability, and data integration. Experienced in AI-assisted development to improve development efficiency and code quality.

EDUCATION

Bachelor of Computer Science in Information Systems, Amikom Yogyakarta [2020] – [2024]

- Current GPA: 3.68/4.00 (144 credits)

High School Diploma – SMA N 1 Bandung [2016] – [2019]

- Final Grade 78/100

WORKING EXPERIENCES

[Fullstack Programmer], [PT Horus Technology Yogyakarta] [Sept] [2024] – [April] [2026]

- Developed end-to-end web applications, including ticketing and ERP systems, delivering functional products under tight deadlines.
- Maintained and enhanced production web systems, improving features, stability, and performance.
- Collaborated with stakeholders to gather requirements, debug issues, and implement solutions.
- Implemented customer–staff matching and operational workflows in ERP systems to optimize business processes.
- Gained experience in backend concurrency, Flask, Gunicorn, WebSocket, SSE, JWT, and error/race condition handling.
- Utilized cloud services (GCP Service Accounts, Secret Manager) for secure and scalable backend operations.
- Independently handled system design (ERD), UI implementation, and full-stack feature development for internal projects.
- Continuously improving technical expertise and soft skills including problem-solving, time management, and stakeholder communication.

OTHER EXPERIENCES & ACTIVITIES

- Volunteer/Community: Active in Karang Taruna, participating in local community events.
- Part-time Work at a restaurant for 1 month, improving customer service, teamwork, and time management.
- Networking: Engaged in informal student and professional networks, learning collaboration and communication skills.

SKILLS

Language: Indonesia (Native), English (Intermediate)

Course/Certification:

- English Course, IEC (4 month program) [Augst] [2019] – [Jan][2020]

Others:

- Python - Javascript/Typescript - PHP - Html – CSS
- NextJs - Vue - Flask - ReactJs - Express - Laravel
- SQL(Postgres, MySql) - NoSQL(Bigtable)
- GCP (BigQuery, PubSub, Cloud Run)
- GIT

HOBBIES & INTERESTS

- Hiking – builds endurance, planning, and risk management skills
- Swimming and running – demonstrates discipline and commitment
- Culinary exploration – curiosity and cultural awareness
